VEDANSH AIREN

Full-Stack Engineer • AI / GenAI Application Developer • Cloud & Enterprise AI Solutions
vedairen@gmail.com • (319) 936-7028 • Iowa City, IA • linkedin.com/in/vedanshairen

TECHNICAL SKILLS

Languages: Java, Python, C#, C++, JavaScript, TypeScript, PHP, SQL
Frameworks & Web: React, Node.js, Express, .NET, Angular, Vite, Tailwind, Bootstrap, REST APIs, MVC, CodeIgniter, Puppeteer
AI / GenAI: OpenAI & Whisper APIs, LibreChat, RAG, prompt engineering, MS 365 Copilot & Copilot Agents, Claude Code, Codex
Cloud & DevOps: AWS (EC2, Cognito, DynamoDB), Azure, GCP, DigitalOcean, GitHub, GitLab, Jira, Agile / SDLC, Unix/Linux
Data & Testing: MySQL, SQL Server, MongoDB, DynamoDB, HL7 FHIR, Stripe, Auth0 | JEST, automated & black-box testing

WORK EXPERIENCE

Software Engineer (Part-Time) | *FarrPro — Iowa City, IA* **Feb 2026 – Jul 2026**

- **Titronics:** developed and maintained a .NET/C# clinical measurement system used by 100+ clinics to capture and review patient thermography scan data (.NET, C#, MySQL, AWS EC2, AWS Cognito).
- **Titronics Cloud:** built a patient-facing portal serving thousands of patients with secure scan access, provider communication, and provider-network features (React, Node.js, Express, AWS, Stripe, MySQL).
- **MyCare:** developed an AI-powered health management app for medical records, recordings, notes, and caregiver collaboration; supported a beta program onboarding 100+ users (React, TypeScript, Vite, Tailwind, Node.js, Auth0, Whisper, HL7 FHIR, Resend).
- Shipped across three products on Jira/Kanban workflows, using AI-assisted development tools (Claude Code, OpenAI Codex, Replit, Figma Make) to accelerate delivery.

AI Developer & Service Owner, Enterprise AI Tools | *University of Iowa (ITS) — Iowa City, IA* **Aug 2024 – Present**

- Build and ship generative AI chatbots and Copilot Chat Agents for 8+ departments, impacting 1,000+ users, using the OpenAI API and the Ivy.ai/Gravyty chatbot platform — including a research chatbot for a gerontology group and AI-enhanced VR applications.
- Led the Iowa AI Gateway pilot, a LibreChat-based multi-model platform for 147 faculty, staff, and researchers; delivered artifacts, agents, and custom model parameters, and drove decisions with pre/post-pilot feedback analysis.
- Service owner and SME for MS 365 Copilot, Copilot Agents, and the AI Gateway; manage technical delivery and support with Microsoft, Gravyty, and Cloudforce.
- Built Python automation for attendance tracking, grade analysis, and generation and delivery of 1,120 certificates via Power Automate.
- Built testing infrastructure to evaluate AI model accuracy and catch performance regressions, and ran black-box evaluations to benchmark enterprise AI tools.
- Delivered "Code with AI," "Copilot Agents," Microsoft 365 Copilot, and AI Gateway (LibreChat) workshops to 400+ faculty, staff, and students.

Application Developer, Graduate Assistant | *University of Iowa — Iowa City, IA* **Aug 2022 – May 2024**

- Created a VR classroom experience in Unity for Oculus Quest with C# simulation scripts, raising study engagement by 38%; integrated OpenAI (ChatGPT) model APIs and real-time heart rate variability (HRV) monitoring via emWave integration.
- Built 3D characters and animations with C# movement tracking to automate in-scene actions based on user behavior.

Software Engineer | *Chenoa Information Services — India* **Jul 2021 – Jul 2022**

- Engineered a MEAN-stack hospital application (Angular, Node.js, DynamoDB), improving scheduling efficiency by 45% and usability by 50% across provider dashboards and patient registration.
- Integrated the Google Vision API for insurance card scanning, cutting processing time by 70%.
- Led a legacy-to-modern MS SQL Server migration (+35% data access speed) and drove Agile delivery in Jira/Bitbucket at a 98% sprint resolution rate.

Software Developer | *Simplex Metal Processors — India* **Sep 2020 – Jun 2021**

- Built a CodeIgniter (PHP MVC) inventory app deployed to 7 companies on DigitalOcean/MySQL, cutting manual tasks by 50%.

PROJECTS

- **Augmented Reality Mobile App (Unity + GenAI):** real-time in-camera image replacement; integrated the Whisper API (95%+ voice accuracy) and Segmind API for rapid text-to-image generation.
- **Hospital Management System (React, Node.js, Express, MySQL, JEST):** layered-architecture full-stack web app with secure patient sign-up, appointment booking, staff directory, and an admin panel built on a clean API design.

EDUCATION

M.S. in Computer Science, University of Iowa, USA **May 2024**
B.Tech in Computer Science, Symbiosis University of Applied Sciences, India **May 2021**

RECOGNITION & CERTIFICATIONS

- President, Computer Science Graduate Student Association — led 50+ members, University of Iowa, 2023–24.
- Winner, IdeaStorm Pitch Competition — "Career Insights Using VR for Neurodiverse," University of Iowa, 2023.
- Microsoft Azure certifications (LinkedIn Learning): Getting Started with Azure; Azure Essential Training for Developers.
